SUMMARY

Proactive third-year Data Science student with core strengths in statistical analysis, algorithm design, and data visualization. Proven ability to engineer scalable models and streamline data processing systems to solve intricate real-world problems. Passionate about collaborating across teams to build data-driven applications that drive measurable performance.

EXPERIENCE

AI ML Annotation, RT Network Solutions Pvt. Ltd Jan 2026 – Apr 2026

Remote

- Generative AI Annotator Intern at RT Network Solutions, evaluating and fine-tuning prompt-response datasets for LLM pipelines.
- Boosted data annotation throughput and quality validation speed by 28% across core project workflows.

PROJECTS

E-commerce sales Analysis 2026 – 2026

https://github.com/Rednarock016/Ecommerce-sales-analysis

- End-to-end data analytics pipeline analyzing 1M+ e-commerce transactions from a UK online retailer. Python (Pandas) ETL ’ EDA with Matplotlib/Seaborn ’ MySQL. Covers revenue trends, RFM customer segmentation, product & geographic analysis with key business KPIs.

EDUCATION

BCA, Data Science 2024 – 2028

Eastern Institute for Integrated Learning in Management · Grade: 7.26

SKILLS

Python, SQL, pandas, NumPy, Matplotlib, HTML, CSS, Git, Seaborn

CERTIFICATIONS

- Python for Data Science · NPTEL · 2026

LANGUAGES

Bengali (Native), English (Fluent), Hindi (Basic)
